

# Delta's Development in Europe, Middle East and Africa

Jackie Chang  
President & GM  
Delta Electronics EMEA  
Dec. 8<sup>th</sup>, 2015

# Delta Electronics in EMEA

Smarter. Greener. Together.

- Founded in Switzerland, 1987. Providing customers with energy-efficient power products and systems
- Inherited technology leadership and research competence from ASCOM energy systems in 2003
- Joined by Eltek to become the industrial leader in telecom power system in 2015

**2650** employees

**11** R&D Center

**37** Sales offices

**2** Manufacturing Sites

# Establishment in EMEA

**Responsive and Local Support**

**Well established infrastructure, R&D, sales and assembly across Europe**

**EMEA HQ  
Netherlands**

**Sales Office  
France**

**R&D and Manufacturing  
Germany**

**R&D Center  
Switzerland**

**R&D and Sales  
Finland**

**Manufacturing  
Slovakia**

**Eltek HQ  
Norway**

**R&D and Sales  
Sweden**

## Telecom Power System

From Galdhøpiggen to Johannesburg, we work with carriers to secure seamless telecommunication in EMEA region

## Industrial Automation

Collaborate with machine maker and production lines, Delta dedicates to realize smart manufacturing with lower energy consumption

## Renewable Energy

Solar power, wind power and green energy application, we do our best to reduce carbon footprint for a sustainable environment

# Reducing Carbon Emission

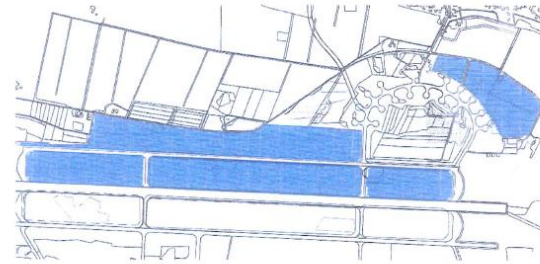

EV Charging Solution in Nordic region

EV charging solution helps city and its residents to reduce carbon emission in daily life. Both residential and commercial application has been deployed over Europe

50 MW Solar Power System to power up the resort with  
clean energy for the next generations

### Installations

Area of 100 hectare

126 installations of 600 kWp

Total capacity of 75.600 kWp

Secured grid connection (Billund)

# Consume Less Power in Digital Age

**Green Datacenter/UPS Solution**

**With the dramatic growth of digital data flow, power consumption has become critical. Delta works with datacenter operators and industry customer to reduce carbon footprint**

**Leading Automaker of Germany**

**Rzeszów–Jasionka Airport, Poland**

**Ministry of Health and Social Development of the Russia**

# Reducing the Load of Grid

**Mega Watt Power System**

**Delta steps into high power field with its solution to help regional power grid become more efficient for commercial and industrial application**

## **Battery Energy Storage (Commercial)**

Delta's Hybrid E5  
Energy Storage System

RPI E5

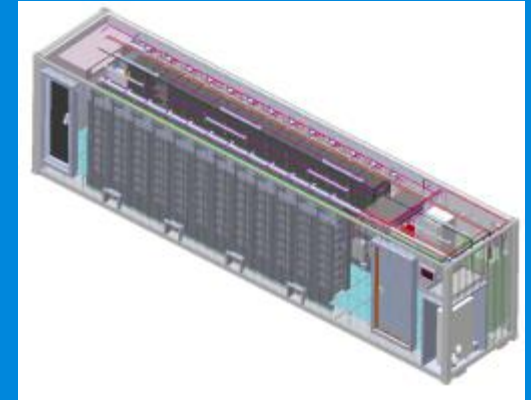

Battery Cabinet

## **Power Conditioning System (Commercial)**

## **MW Level Energy Storage Container for Peak Shaving (Industrial and Commercial)**

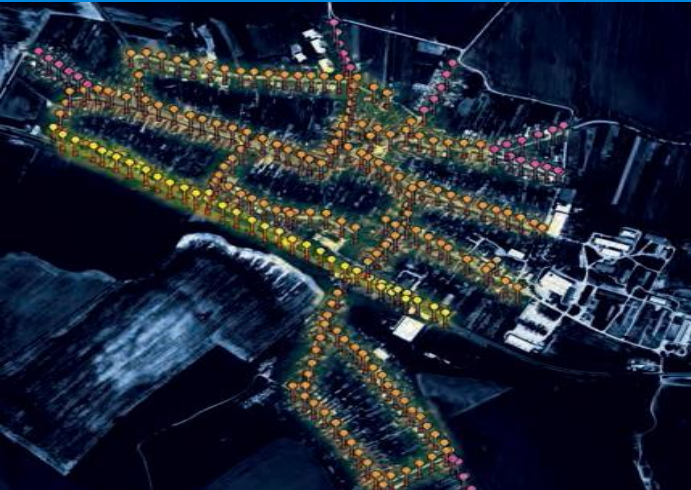

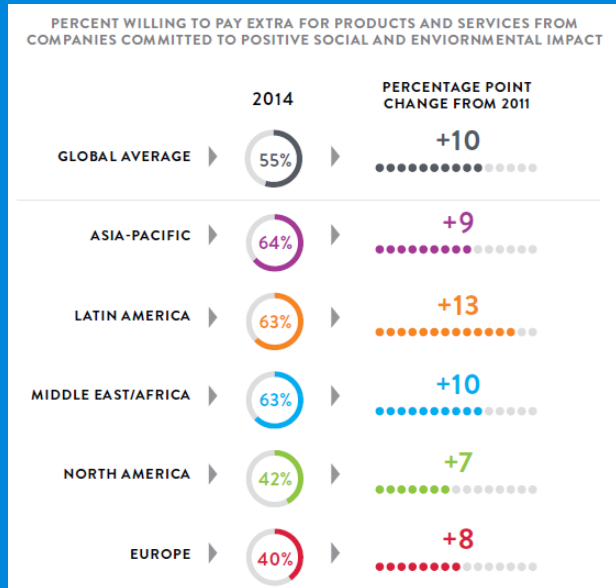

# Saving Energy in Daily Life

## LED Lighting Solution

We also work with the Municipalities of Italy to lower the power consumption while preserving the city landscape at the same time

Companies with constant sustainability efforts have become a preferred option

Delta is considered a leader for its CSR initiatives as well as energy-efficient solutions

*“An enterprise, exists and functions in a living environment, closely connected to each of us. It serves a higher goal of being responsible to society rather than just making profits”*

**Bruce Cheng**  
**Founder of Delta Group**
